

JMI PUMP SYSTEMS

Your Partners in Pumping Since 1958

SEALED MAINTENANCE-FREE BATTERIES

EMERGENCY POWER

AZP-Battery-LW

The leading-edge sealed technology behind JMI's Sealed Maintenance-Free battery makes it ideal in applications where an electrical outage could be catastrophic.

JMI combined the latest technical expertise, automated manufacturing processes, and tough, tested and proven construction to deliver the performance contractors and property owners depend on to work flawlessly with backup pump and other UPS applications.

The advanced design and renowned quality behind the JMI sealed power battery add up to maintenance-free operation and a useful life of 4 to 5 years.
